Technical data

Pump tube length: 46 cm

Flow rate: 10 l/min

Discharge hose: 60 cm

Instruction for batteries

Driven by 2 batteries, size D, 1,5 V. These batteries are not included in price but are available in many stores.

- Depending on medium the batteries will have a life time up to 2 hours.
- Only use batteries of same brand and type.
- Remove batteries if pump will not be used.
- Please dispose the old batteries appropriate

Please note

- Pump is only suitable for short-term operation and is not allowed to run dry.
- Do not place the container in that the liquid will be pumped higher than the battery housing of the pump.
- After use clean the pump with water.
- If pump will be working against a closed nozzle or if any liquid will back up inside the hose some medium will drain of at the upper part of pump tube that is marked with "Overflow Outlet". Please keep your hands away from these points and wear always protection clothes (gloves, safety classes, etc.)
- Do not use this pump for flammables or in hazardous areas.
- **Do not use this pump for flammables or in hazardous areas.**
